

## MAXFIT™ GLOVES with Thin Glove Technology

**MONEY SAVING**

**ENVIRONMENTALLY FRIENDLY**

- Fits like a second skin.
- No latex, nitrile or man made/natural rubbers – materials known to cause allergic reactions in some people.
- Hands **NEVER** sweat – they breathe (addresses health and safety compliance issues).
- Unmatched level of comfort and dexterity.
- Has the touch sensitivity of a latex/vinyl glove (perfect for precision work)
  - Scroll Blackberry
  - Text Messaging
  - Read Braille
- Has amazing grip
  - 37% more grip than bare hands
  - Achieves a 400%+ gain when wet or oily relative to the bare hands
  - Arthritis Friendly – gives you back your independence
- Resistant to a broad range of solvents (tested for offshore chemicals and solvents).
- Can be washed numerous times in hot water wash with regular laundry - no shrinkage, cracking or peeling occurs.
- Has been tested in the dental autoclave 23 times without compromising the polymer coating. Can tolerate up to 250°C on a short term basis.
- No seams (spiral nylon construction).
- Has great application for the job site, outdoors/indoors, sports, health care, boating, gardening, assembly, mechanics and much, much more.

**Common Question:** What good is a glove if it's too uncomfortable to wear?

**With Maxfit:** Comfort equals Healthy Hands

Comfort equals Compliance and Safety

Comfort equals Productivity
