

THENTIX INFORMATION

- MADE IN CANADA

All Natural Product

- **No** Perfumes
 - **No** Parabens
 - **No** Waxes
 - **No** Silicones
 - **No** Glycerines
- Developed to treat severe psoriasis. Also, good for eczema, rosacea, acne, fungus, burns, itching, chapped lips, diaper rash, etc. etc...

Ingredients

- **Honey** - Pure unprocessed honey is the main ingredient and has been known as a healer since the time of Aristotle and Cleopatra.
- **Royal Jelly** - contains all of the B-complex vitamins, including minerals, enzymes, hormones, and amino acids – DNA & RNA – the genetic code that makes up life.
- **Aloe Vera** - has more than 200 biologically active agents which have great healing effects.
- **Vitamins A and E** - accelerate healing and reduce sun damage to skin, and aid in reducing facial wrinkling.
- **Jojoba and Avocado Oils** - are good skin toners. They closely resemble our natural sebum – the fatty lubricant matter secreted by the sebaceous glands of the skin.
- **Ginseng** - increase circulation by oxygenating the skin cells.
- **Safflower Oil** – helps as an anti-inflammatory for damaged and inflamed areas.
 - ❖ **Calendula (Marigold Flower)** – is a natural antiseptic/disinfectant. Safflower combined with Calendula is highly recommended for acne and insect bites.

- **Chamomile** – is a known softening agent for rough, dry skin, and is also known for its sedative effects. The cream does not seal the pores and prevent it from hydrating.
- **Grape Seed Oil** - added for regenerative properties.

➤ Penetrates the top 3 or 4 layers of skin where damage occurs.

Characteristics

- The cream is hypoallergenic, antifungal, antiseptic and antibacterial.
- No greasy residue – leaves your hands and body feeling like velvet.
- Essential in winter when skin really dries out.
- Excellent as a lip balm for cracked and dry lips.
- Good for sunburn.
- Utilize under makeup to protect your face from parabens, silicones etc.
- Used in the NICU (Premie Unit) at Ontario's London Hospital. Safe to use on diaper rash and cradle cap.
- Of special interest to those who have to wash their hands often (Health Care Workers). It does not wash off easily!!
- One product for the whole body from scalp to feet. Your costs will be greatly reduced by not having to purchase more than one (1) cream. However, you may consider purchasing a second jar so you will have one at home, one at the office or in your purse.
- Dr. Syed Amiry, an Ontario Board Certified Cosmetic Dermatologist gives this product his seal of approval.
- The leading Oncologist (Dr. Reingold) at Brampton Civic Hospital in Ontario recommends Thentix for his patients.

THENTIX DOES NOT CURE – IT CONTROLS AND RELIEVES SYMPTOMS

CAUTION

Parabens are dangerous! Check your creams and makeup for ingredients. Actress Kim Raver of Grey's Anatomy has made the conscious choice to cut out parabens. Let's follow her example.
